Files organization	5
Submission on time through Github: Due date is Aug 29th, 2023 @ 5:30pm.	10

1. Based on assignment 1, add a 'login' tab to navigation bar.

2. Move part 3 (form) of assignment 1 to a modal window or separate page; the form should be shown after user click on the newly added login tab in the navigation bar.

3. Add 3 modal window to the 3 by 1 layout row (part 2 of assignment 1).

Clickable modal window button

4. Modal window shows information such as product detailed description, price, more images, input (eg. Quantity) and 2 more buttons ('add to cart' and 'close' buttons).

5. Click on 'add to cart', order confirmation information should show in the same modal window or on a separate page.

Bonus: apply JavaScript (5 points) to add a animation that shows 2 different promotion infomration.
